

# DA-10/10 6P 3V 245W

## Características Characteristics

|                                                                 |                                                       |
|-----------------------------------------------------------------|-------------------------------------------------------|
| <b>Tensión<br/>Voltage</b>                                      | Monofásica 230V 50Hz<br><i>Single-phase 230V 50Hz</i> |
| <b>Tipo motor<br/>Motor type</b>                                | 3V 3S IP20 cl.F                                       |
| <b>Velocidad<br/>Speed</b>                                      | 6 polos<br><i>6 poles</i>                             |
| <b>Potencia motor<br/>Motor power</b>                           | 245 W                                                 |
| <b>Intensidad absorbida máxima<br/>Maximum absorbed current</b> | 2,60 A                                                |
| <b>Condensador<br/>Capacitor</b>                                | 10 µF/450V                                            |
| <b>Temperatura del aire<br/>Air temperature</b>                 | -20°C < T < +40°C                                     |
| <b>Peso<br/>Weight</b>                                          | 13,2 kg                                               |
| <b>Código ventilador<br/>Fan code number</b>                    | V710060<br>5128932600 (MP)                            |
| <b>Código motor<br/>Motor code number</b>                       | 9073005300                                            |
